Apex Learning®

Alaska Tutorials

with Adaptive Remediation

Bring all students to grade-level proficiency and prepare for the PEAKS

Create Opportunity

State-aligned Tutorials, customizable to your district's needs, adapt to each student and provide personalized instruction, practice, and review. Alaska students achieved a 64% gain from pretest to posttest. Here's how:

Bring Middle School Students to Grade-Level Proficiency

By connecting adaptive remediation with on-grade skills, Tutorials efficiently fill gaps and build grade-level proficiency.

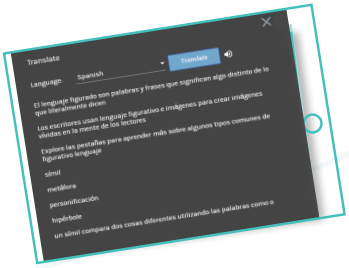
Increase State Test Scores

Personalized learning plans target just what each student needs—filling gaps and developing standards proficiency.

Topic-level pretests identify skill gaps

Adaptive remediation—down to elementary-level concepts if needed—fills gaps in prerequisite skills

On-grade instruction supports state exams and grade-level proficiency

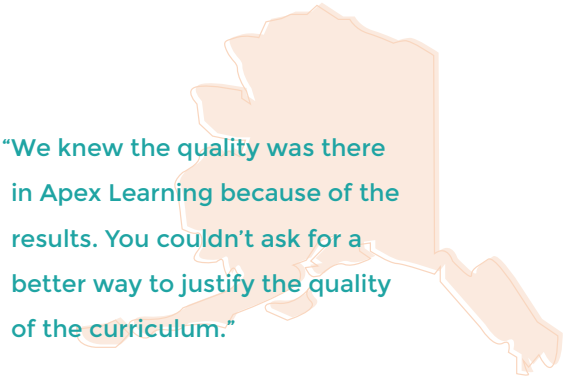


Reporting by Standard

With real-time dashboards and reports, educators can tell where each student is—for each standard—so they have the information they need to support student success in class and on the PEAKS.

Proven Results

Tutorials help students across Alaska and the nation achieve grade-level proficiency, and they help districts increase performance on ESSA indicators of achievement.



"We knew the quality was there in Apex Learning because of the results. You couldn't ask for a better way to justify the quality of the curriculum."

Jan Thompson
