

California Tutorials

with Adaptive Remediation

Bring all students to grade-level proficiency and prepare for the Smarter Balanced and CAASP exams

Create Opportunity

State-aligned Tutorials, customizable to your district's needs, adapt to each student and provide personalized instruction, practice, and review. California students **achieved a 57% gain** from pretest to posttest. Here's how:

Bring Middle School Students to Grade-Level Proficiency

By connecting adaptive remediation with on-grade skills, Tutorials efficiently fill gaps and build grade-level proficiency.

Increase State Test Scores

Personalized learning plans target just what each student needs—filling gaps and developing standards proficiency.

Topic-level pretests
identify skill gaps

Adaptive remediation—down
to elementary-level concepts
if needed—fills gaps in
prerequisite skills

On-grade instruction
supports state exams and
grade-level proficiency

Reporting by Standard

With real-time dashboards and reports, educators can tell where each student is—for each standard—so they have the information they need to support student success in class and on the high-stakes tests.

Proven Results

Tutorials help students across California and the nation achieve grade-level proficiency, and they help districts increase performance on ESSA indicators of achievement.

“The combination of in-class instruction and away-from-class tutorials has been a big success. Overall, Apex is to be recognized for their dedication to student success.”

Robert Larsen
Teacher
Fontana Unified SD
