## with Adaptive Remediation

Prepare students for success on the TCAP exams

### Create Opportunity

State-aligned Tutorials, customizable to your district's needs, adapt to each student and provide personalized instruction, practice, and review. Tennessee students **achieved a 63% gain** from pretest to posttest. Here's how:

### Increase End-of-Course Test Passage

Each student gets just what he or she needs for success on the English, math, science, and social studies EOCs—filling gaps and developing course proficiency.

### Bring Middle School Students to Grade-Level Proficiency

By connecting adaptive remediation with on-grade skills, Tutorials efficiently fill gaps and build grade-level proficiency.

Topic-level pretests  
identify skill gaps

Adaptive remediation—down  
to elementary-level concepts  
if needed—fills gaps in  
prerequisite skills

On-grade instruction  
supports EOC exam and  
grade-level proficiency

## Reporting by Standard

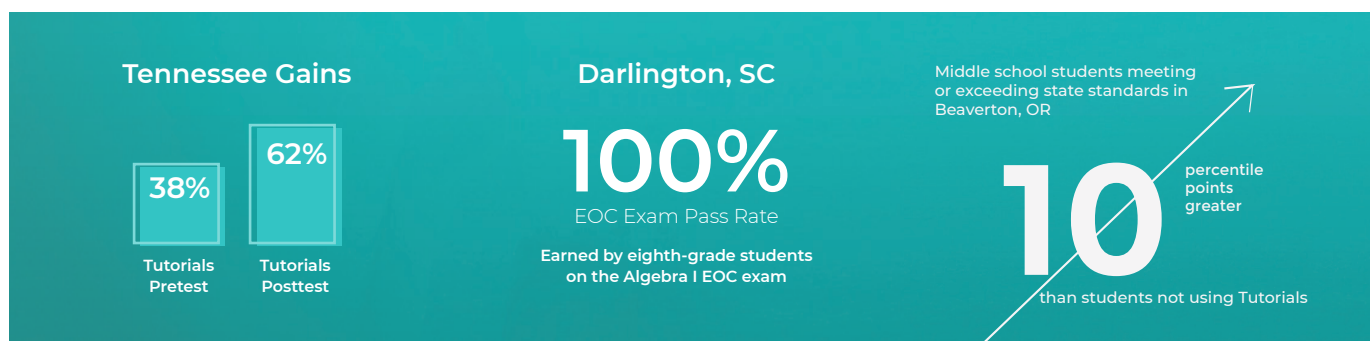

With real-time dashboards and reports, educators can tell where each student is—for each standard—so they have the information they need to support student success in class and on and high-stakes tests.

## Proven Results

Tutorials help students across Tennessee and the nation pass exams required for graduation and achieve grade-level proficiency, and they help districts increase performance on ESSA indicators of achievement.

“We know that personalized learning is increasing student outcomes by our continual yearly rise in test scores, our rise in graduation rates, and our everyday student successes.”

Julie Kornahrens  
Assistant Superintendent  
Dorchester School District Two, SC
