

Dear parents,

We are proud to offer students in grades 6-12 access to summer learning options. This online program will offer students access to personalized practice in English and Math, as well as SAT-Math test prep. Your student can use them to practice, identify and address learning gaps, to ensure students are ready for grade-level instruction in the upcoming school year, and/or to prepare for upcoming college readiness exams. And all offerings are at no cost to you! We encourage students to work frequently in Tutorials to retain what they learn.

What are Tutorials?

Tutorials provide opportunities for students to achieve their individual potential. Tutorials:

- Are aligned to the Maryland Content Standards.
- Include assessment to identify learning gaps and measure learning gains.
- Generate personalized learning plans for each student based on learning needs.

Engaging Learning Activities

Students can choose how they master concepts and practice skills according to how they learn best. A variety of short, focused activities in each module provide opportunities for students to interact with concepts in a new way, deepen understanding, and review foundational concepts:

- Learn It interactive exercises and real-life examples
- Try It check understanding and build confidence
- Review It watch a short instructional video
- Test It evaluate mastery of module objectives
