Prepare Students for High-Demand Careers

With Career and Technical Education (CTE) Courses

Apex Learning® Career and Technical Education (CTE) Courses, offered in complete programs of study, connect state, industry, and national standards with real-world skills to prepare students for success in their careers and further education.

**Beyond Courses: Complete Programs of Study**

Why provide students with one-off, introductory CTE courses when you can provide them with complete programs of study in high-demand career clusters? The Apex Learning CTE catalog goes beyond introductory-only courses, with carefully designed sequences of introductory, intermediate, and capstone-level courses that ensure students graduate ready for a job, certification, or technical school. Built to state, industry, and national standards, Apex Learning CTE Courses provide students with the knowledge and skills required for career readiness.

**Provide a Student-Centered Learning Experience**

*Learn by Doing.* Hands-on learning experiences enable students to apply practical skills to real-world scenarios. Each lesson includes multiple opportunities for students to build knowledge through inquiry, creation, connection, observation, and confirmation. This active learning approach develops critical thinking skills and prepares students for success in the workforce.

*Offer Individualized Support.* As students move through the courses at their own pace, they benefit from continual feedback, opt-in supports, and scaffolds embedded in the courses.
Offer Career-Driven Programs of Study

Each CTE course contributes to a complete program of study, and each program of study offers a series of courses that equip students for high-demand careers. Students are prepared with the foundational content they need to learn and for related certification exams, so they can earn industry-recognized credentials.

The table below shows several of the programs of study students can complete using our CTE Courses.

<table>
<thead>
<tr>
<th>Program of Study</th>
<th>General Management</th>
<th>Administrative Support</th>
