Prepare Students for High Demand Careers

Apex Learning® Career and Technical Education (CTE) Courses connect state, industry, and national standards with real-world skills to prepare students for success in their careers and further education.

Offer Career-Driven Programs of Study

Each CTE course contributes to a complete program of study. Each program of study offers a series of courses that equip students for high demand careers. These programs of study also prepare students for related certification exams, providing the foundational content students need so they can quickly review for and earn industry-recognized credentials.

Provide a Student-Centered Learning Experience

Learn by Doing. Hands-on learning experiences enable students to apply practical skills to real-world scenarios. Each lesson includes multiple opportunities for students to build knowledge through inquiry, creation, connection, observation, and confirmation. This active learning approach develops critical thinking skills and prepares students for success in the workforce.

Offer Individualized Support. As students move through the courses at their own pace, they benefit from continual feedback, opt-in supports, and scaffolds embedded in the courses.
CTE Sequences with a Purpose

Our CTE catalog goes beyond introductory-only courses. Our catalog prioritizes offering complete programs of study in high pay, high demand career clusters. Carefully designed sequences of introductory, intermediate, and capstone-level courses ensure students graduate ready for a job, certification, or technical school. Built to state, industry, and national standards, Apex Learning CTE Courses provide students with the knowledge and skills required for career readiness.

The table below shows several of the programs of study students can complete using our CTE Courses.
