

Built specifically to prepare students for the New York Regents exams

Raise exam scores with rigorous, interactive instruction, practice, and review built for the Regents exams. Adaptive Regents Tutorials offer an easy to implement, standards-aligned solution that increases achievement by helping educators quickly identify and address each student's learning needs.

Raise Outcomes for All Students — From Struggling to Advanced

Close the gaps.

Adaptive remediation down to elementary-level content and real-time support for struggling students allow *all* students to excel when put to the test, no matter where they start.

Raise exam scores.

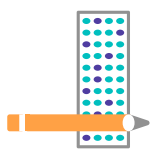

Personalized learning plans target the skills and concepts where students need the most attention, while reporting by standard gives teachers and administrators constant insight into test readiness.

Score more at Level 5.

High-level practice items that offer immediate, instructive feedback allow accelerating students to push themselves to the highest performance levels.

Powerful, Ready-to-Go Solutions

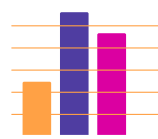

Tutorials help districts amplify the achievement of every student through flexible, easy-to-implement programs.

Adaptive remediation down to elementary-level content

Designed for tablets, Chromebooks™, laptops, desktops, and any device with an Internet connection.

“Because of our partnership with Apex Learning, our teachers are able to truly differentiate instruction and provide options for learning.”

Jim Canfield

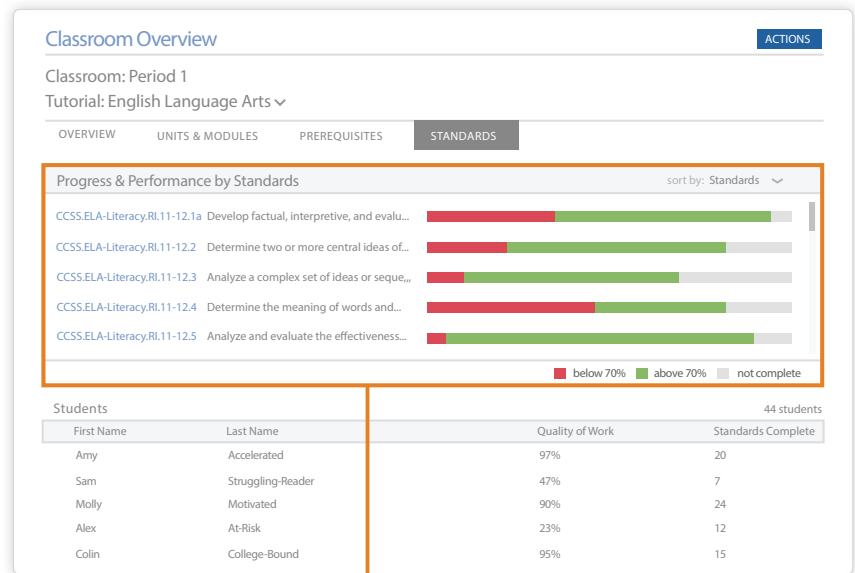

Principal & Director of Special Programs
Alternative Learning Program
Troy City School District

Real-Time Insight into Progress and Performance

Integrated dashboards and automated reports provide progress and performance data by standard, giving teachers and administrators the real-time insight they need to continuously support student success throughout the year.

“The reporting functionality of Apex is awesome. I really appreciate it after using some other systems that just don’t cut it.”

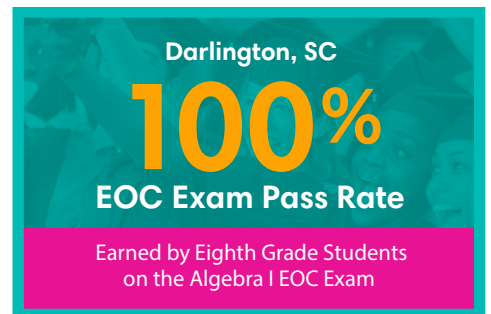

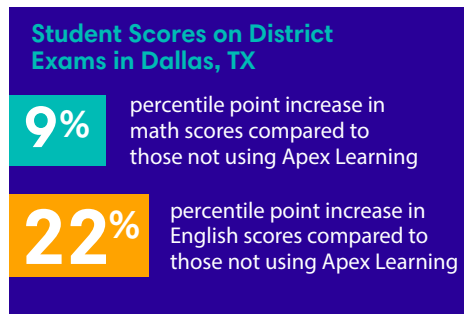

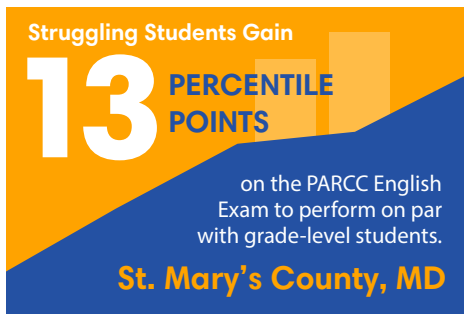

Heather Pelletier
Matanuska-Susitna
Borough School District

View student progress and performance data by standard.

Proven Results

The most effective way to raise outcomes is to support at-risk students before they fall behind, and to challenge students who are at or above grade-level. Districts across the nation have used Adaptive Tutorials to increase achievement for students at all levels, from those ready to accelerate to those needing remediation.
