The “Course Introduction” section has more detailed information on the navigation and tasks for this course.

Exercise Requirements

In addition to completing written assignments, discussions, and quizzes, you are required to complete physical fitness activity each week and pass off specific sports related skills.

You are required to complete a minimum of three hours per week of exercise over at least three different days of the week. Each week’s workouts must include elements of cardio, strength training, and flexibility. You will be recording your activities and heart rate on a weekly log that you will submit to your instructor. More detailed information about the exercise requirements and your fitness log can be found in the “Course Introduction” section.

You will also have several skills sections throughout this course in which you will focus on learning specific sport-based skills. Many of these skills will require recording yourself via digital video. If there is an issue with this, please contact your instructor to discuss alternate options. More information about these can be found within each sport-specific section of the course.

Pacing & Grading

Each section of this course is designed to be completed in about one week’s time. However, if you have less time to complete the course, you may need to move through the sections more quickly. Your teacher may also have a set schedule he/she would prefer you to use. Check with your instructor if you have any questions.

Each quiz or assignment is worth a specific amount of points. A final percentage for the course will be determined by points earned divided by points possible. See the detailed Course Outline and Pacing Guide for more details on points possible and pacing.
