

Students begin their introduction to German by focusing on the four key areas of foreign language study: listening, speaking, reading, and writing. The course represents an ideal blend of language learning pedagogy and online learning. Each unit consists of a new vocabulary theme and grammar concept, reading and listening comprehension activities, speaking and writing activities, multimedia cultural presentations, and interactive activities and practices which reinforce vocabulary and grammar. There is a strong emphasis on providing context and conversational examples for the language concepts presented in each unit. Students should expect to be actively engaged in their own language learning, become familiar with common vocabulary terms and phrases, comprehend a wide range of grammar patterns, participate in simple conversations and respond appropriately to basic conversational prompts, analyze and compare cultural practices, products, and perspectives of various German-speaking countries, and take frequent assessments where their language progression can be monitored. The course has been carefully aligned to national standards as set forth by ACTFL (the American Council on the Teaching of Foreign Languages).

- Midterm and Semester Exams are comprehensive in nature. Not only do they assess students’ knowledge of the language, but they also assess students’ ability to produce the language in a communicative way. Midterms and Semester Exams include both oral and written assessments.

“Life-long Learner” Assignments

- Each semester, students are required to create a plan for incorporating German into their daily lives. They accomplish this by outlining the long-term benefits of learning German, by making goals for what they want to accomplish with their mastery of the language, and by creating a plan for accomplishing their goals.

“Explore” Activities

- These activities help students develop a more profound understanding of German speaking countries and cultures.

“Webquest” Activities

- These special activities provide students the opportunity to link out to authentic sources of language on the Internet. Students are given practical tasks where they must use their language to accomplish the assignment.

Discussion Board Activities

- There is one discussion board activity in each semester. These activities provide opportunities for students to interact with other students and practice their new language.

Journal

- Journal assignments allow students to make cultural comparisons, reinforce new vocabulary and grammar patterns, and practice communicating in the language.
